

1

Check the price history

Was the 'original' price of Fitness Equipment ever actually charged? Look at the typical range, not the crossed-out number.

2

Compare 3 retailers

Same model and size. Note delivery, returns and warranty next to price.

3

Add the true total

Shipping, tax, add-ons and fees. Compare totals, not sticker prices.

4

Stack the savings

Coupons, card offers, cashback and gift-card discounts. Confirm what combines.

5

Check the fine print

Confirm: sizing and fit for my body or use; safety certifications claimed (verify).

BUY

Total is at or below your target and terms are clear

WAIT

Price is fair but above target. Set an alert

SKIP

History looks inflated or terms are unclear

General guide only. Prices, policies and availability vary by seller and change over time.
