

# TikTok Hashtag & Keyword Research Worksheet

Social Media | Fillable PDF

HOW TO USE

Collect keywords and hashtags for TikTok by topic. Rate relevance honestly and record results so your list improves over time.

MAIN TOPIC

DATE RESEARCHED

| Topic | Keyword / hashtag | Size (small / med / large) | Relevance (1-5) | Used on (post) | Result notes |
|-------|-------------------|----------------------------|-----------------|----------------|--------------|
|       |                   |                            |                 |                |              |
|       |                   |                            |                 |                |              |
|       |                   |                            |                 |                |              |
|       |                   |                            |                 |                |              |
|       |                   |                            |                 |                |              |
|       |                   |                            |                 |                |              |
|       |                   |                            |                 |                |              |
|       |                   |                            |                 |                |              |
|       |                   |                            |                 |                |              |
|       |                   |                            |                 |                |              |
|       |                   |                            |                 |                |              |
|       |                   |                            |                 |                |              |
|       |                   |                            |                 |                |              |
|       |                   |                            |                 |                |              |
|       |                   |                            |                 |                |              |
|       |                   |                            |                 |                |              |
